Clinical Academic Position – Neurologist (Neuromuscular Specialist)
Department of Clinical Neurological Sciences
Schulich School of Medicine & Dentistry, Western University

Appointment Type and Rank:	Assistant or Associate Professor, Limited-Term (Clinical Academic) appointment, or Associate or Full Professor Continuing (Clinical Academic) appointment, commensurate with qualifications and experience. The successful candidate will hold a clinical academic appointment at Western University as a Clinician Teacher or Clinician Researcher.
Number of Positions:	2
Posting Date:	November 3, 2026
Closing Date to Apply:	Review of applicants begins December 3, 2026 and will continue until the position is filled.
Anticipated Start Date:	July 1, 2027 or as negotiated.

Position Profile:
The Department of Clinical Neurological Sciences at the Schulich School of Medicine & Dentistry, is seeking two full-time Neurologist-Neuromuscular Specialist (2 positions available) within the Division of Neurology in our affiliated teaching hospitals, London Health Sciences Centre and St. Joseph's Health Care London.

The Department of Clinical Neurological Sciences is comprised of 38 Neurologists and 12 Neurosurgeons and is the single tertiary referral centre for Southwestern Ontario. The Department provides secondary, tertiary and quaternary services to a patient population of 1.8 million, but its referral base extends beyond the region, increasing this referral base to 3.5 million. The Department is committed to building a representative, diverse, inclusive, and culturally responsive workforce.

Experience, Skills and/or Clinical Expectations Required:
The successful candidates will have a record of proven ability or significant potential to lead an independent career in research or academic medical education. Preference will be given to candidates who have completed at least one year of post-doctoral fellowship subspecialty training in Neuromuscular Disease, have demonstrated expertise in neuromuscular diseases, and have obtained or are willing to obtain EMG Certification with the Canadian Society of Clinical Neurophysiologists (CSCN). Experience with single fiber EMG would also be considered an asset. Demonstrated expertise in the management of myasthenia gravis will be considered an asset for one of the positions. Demonstrated experience in neuromuscular genetics would be considered an asset for the second position.

These are academic positions within the Department of Clinical Neurological Sciences at Western University. The successful candidates will be appointed in either the Clinician Researcher or Clinician Teacher Academic Role Category, depending on their academic interests, experience, and qualifications. Protected academic time will be provided to support the expectations of the successful candidate's Academic Role Category.

The successful candidates are expected to be contributing members of the Neuromuscular Program and Division of Neurology including on call responsibilities for general neurology and/or stroke. Clinical work will include supervision of the clinical teaching unit (general neurology and/or stroke), ambulatory care, and supervising the EMG Laboratory, including the supervision of technologists and trainees. In addition, the successful candidate will be academically oriented, with the interest and potential to build a career in research or education.

Qualifications Required:
The candidate will fill a clinical academic role as a Clinician Teacher or Clinician Researcher at Western University. Applicants should be certified, or eligible for certification, in Neurology by the Royal College of Physicians and Surgeons of Canada, or equivalent. Candidates must have an MD, or equivalent, and must be eligible for licensure in the province of

Ontario. The successful candidate will be appointed at the rank of Assistant Professor/MD or Associate Professor/MD in a limited term (Clinical Academic) appointment or at the rank of Associate or Full Professor in a continuing (Clinical Academic) appointment, depending on qualifications and experience.

Compensation Details:
Compensation will be based on qualifications and experience and will be composed primarily of fee for service income with additional support coming from the academic alternate funding plan, academic salary and on-call stipends.

Affirmation Policy Statement:
Western, like many postsecondary institutions in Canada, is moving beyond sole reliance upon Indigenous self-identification in its hiring processes. This is to safeguard against the use of incorrect, incomplete, or misleading information in circumstances in which a candidate has made a declaration of Indigenous citizenship or membership. Candidates who are invited for an interview or who are short-listed, and who have made a declaration of Indigenous citizenship or membership for material advantage at Western, including where required or preferred for the position, will be asked to have their declaration of Indigenous citizenship or membership affirmed through a relational accountability process, led by the Office of Indigenous Initiatives (OII), that is consistent with Indigenous ways of knowing, being, and doing. Please contact the OII directly for details on the affirmation processes: https://indigenous.uwo.ca/. The policy can be viewed at: POLICY 1.58 - Affirming Declarations of Indigenous Citizenship or Membership at Western University.

The Department of Clinical Neurological Sciences is comprised of 38 Neurologists and 12 Neurosurgeons and is the single tertiary referral centre for Southwestern Ontario. The Department provides secondary, tertiary and quaternary services to a patient population of 1.8 million, but its referral base extends beyond the region, increasing this referral base to 3.5 million.
