BHI STATE OF THE SCIENCE SUMMIT

EVENT DETAILS

The Summit is an international conference set to highlight cutting-edge science at the crossroads of brain and heart health, showcasing innovation and state-of-the-art research.

Learn from international experts, leaders within the Brain-Heart Interconnectome and the next generation of researchers working in brain and heart health.

For Trainees!
**Prizes for rapid-fire talks and
poster presentations**

June 12-14, 2024

**National Arts Centre,
1 Elgin St. Ottawa**

Registration Coming Soon

JOIN US TO:

Increase your understanding of how the brain and heart are connected from a biological, clinical, social and patient perspective.

Present your research as an emerging scientist and engage with your peers in dynamic, interactive sessions.

Engage with colleagues from across scientific disciplines to advance your research and foster the transformation to transdisciplinary brain-heart research.
